

SPICE project: Smart Procurement for Better Transport

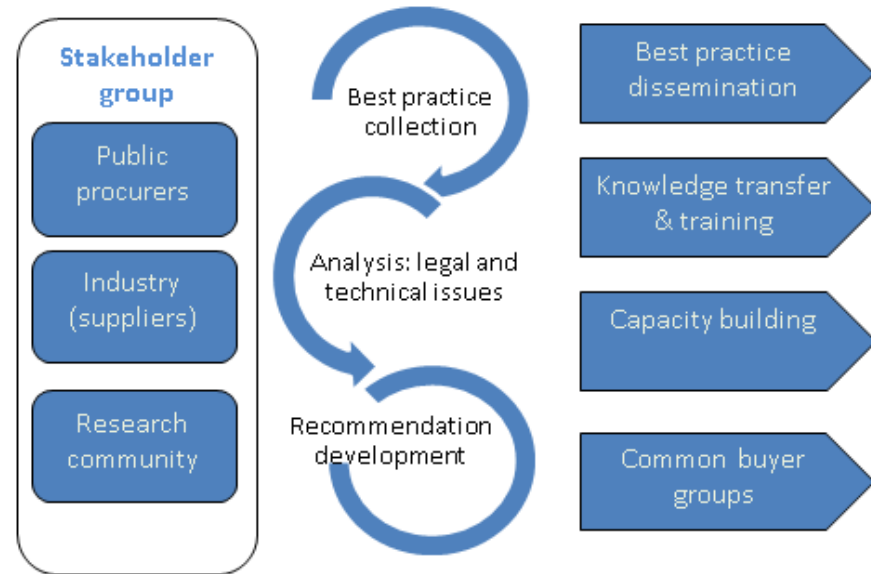

SPICE Webinar 24 January 2018

Project Coordinator Dr Bahar Namaki Araghi, City of Copenhagen

The **SPICE project** will analyse the current practices of innovative procurement procedures, e.g. competitive dialogue, competitive procedure with negotiation, innovation partnership and aim to assist public procurers to use public procurers as instruments to implement innovative and sustainable transport and mobility solutions.

SPICE will:

- **Build a stakeholder network of public procurers and industry;**
- **Collect and disseminate best practices;**
- **Facilitate dialogues between public procurers and industry;**
- **Develop recommendations to assist public procurers in ongoing procurers;**
- **Organise training and capacity building;**
- **Support common buyer groups**

Next webinar: February 22, 14-15 CET

Topic: How to use Joint procurement and Common Buyers Groups to encourage innovations in public procurement?

We are looking for

1) Good (or bad) examples on the innovative procurement, especially in the field of

- Alternatively fuelled vehicles
- ITS solutions
- Mobility services

2) Existing Common Buyers Groups

3) Procurers interested in working together in order to form a Common Buyers Group

Thank you!
